### Summary

---

With over two decades of experience in the IT industry, I specialize in digital marketing applications, combining technical expertise with problem-solving skills. My core competencies include responsive design, website optimization, and Behavior-Driven Development (BDD).

I'm proficient in PHP, Drupal, JavaScript/jQuery, HTML, CSS/CSS3, Gulp, Sass, and Apigee. Over the years, I've collaborated with major clients such as Pfizer, Johnson & Johnson, Kenvue, AB InBev, Auping, Van Edgmond Groep, Saint-Gobain, Total Express, and Itaú Bank.

As a Solution Specialist at Cielo and TCS, I worked closely with Product Owners, took on Tech Lead responsibilities, and managed both projects and technical challenges. Currently, as a Contractor at ImageX, I focus on Drupal development, overseeing service agreements, support tickets, and new projects.

With extensive experience in international projects, I am committed to delivering innovative solutions that enhance the IT and digital marketing landscape.

---

## Experience

---

### ImageX / Drupal Developer

September 2022 - Present, Santa Bárbara d'Oeste (Remote), São Paulo

- My core expertise lies in working with content management systems, particularly Drupal, encompassing versions 8, 9 and 10;
- I play a pivotal role in ensuring the seamless operation of existing systems while contributing to the growth and success of upcoming ventures within the organization;
- In addition to my core expertise in content management systems, particularly Drupal (versions 8, 9 and 10), I also work on long-term client SLAs and contribute to short-term project development;
- I assist with estimations and develop enhancements, ranging from creating new modules/components to adding new sections to websites. I also focus on performance and security improvements;
- I supported drupal migration from the 8, 9 to 10 version;
- During this time, I have contributed insights to the Drupal community and developed three modules: [Sneak Peek](#), [Suspect Blocker](#) and [Glimpse](#) and added suggestions for other modules such as IXM blocks and Drupal Core.
